

Transportation and tolling

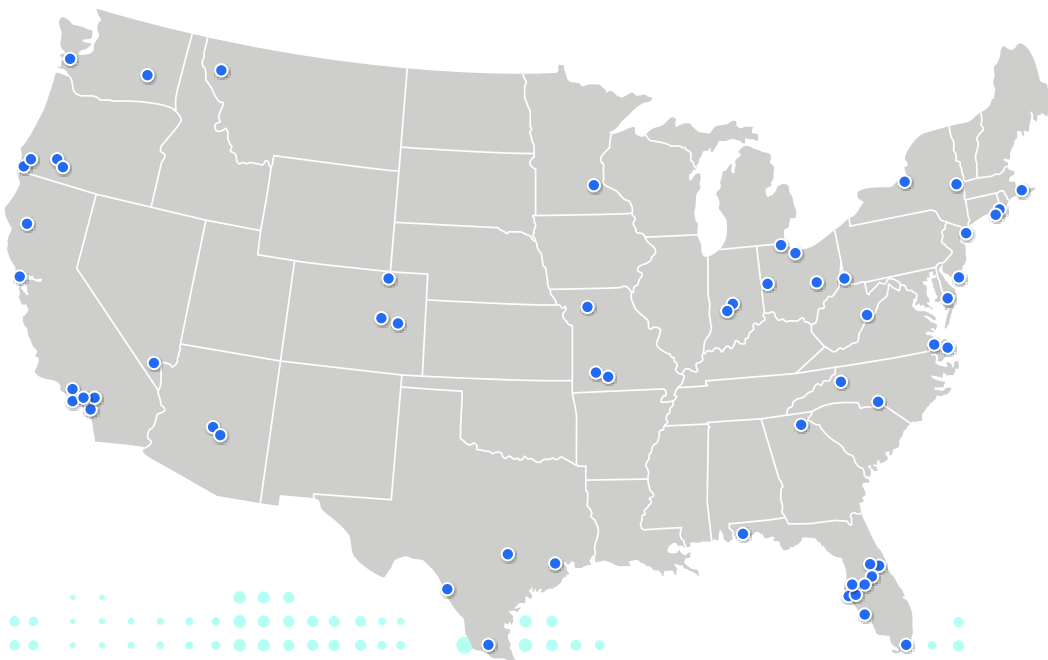

The tolling industry continues to reinvent itself as technology and driver behavior evolves. As the industry accelerates towards transformed customer experiences, TTEC provides a balance of human intelligence and innovative technology to meet customer expectations, adhere to government regulations, and keep costs in check.

On the road to better experiences

With decades of experience working alongside many of the nation's largest tolling agencies, TTEC is proud to be a trusted partner to help modernize and optimize customer service operations. From omnichannel CSC and back-office support to the latest AI-enhanced solutions, we help tolling agencies reduce customer effort, enable contact center employees, and continuously optimize business outcomes through digital CX transformation to improve customer satisfaction and lower total cost to serve.

For nearly 20 years, we have supported complex electronic and manual toll operations, managed lanes, multiple channels of revenue collection systems, and back-office support along with installation and ongoing operations of the technology that supports these programs.
